

PURIFIBER[®] spa

Dosage and Instructions

Dosage Rate: 8 oz. of product at a time, for any spa.

Instructions: To enhance cartridge filter performance and aid in cleaning, add up to 8 oz. of Purifiber[®] Spa to circulating water. Only add if cartridge is clean and free of oil and dirt. Clean cartridge if necessary by soaking in an appropriate cleaning solution. After spa water clarity is achieved, remove dirty cartridge and clean again to remove all dirt, debris and exhausted Purifiber. Use on a continuous basis to protect cartridge, assist in cleaning, and leave your spa water looking crystal clear and smelling fresh!
